IBEC Fund: A Strategic Overview

Visualizing our disciplined methodology, strategic goals, and current portfolio performance

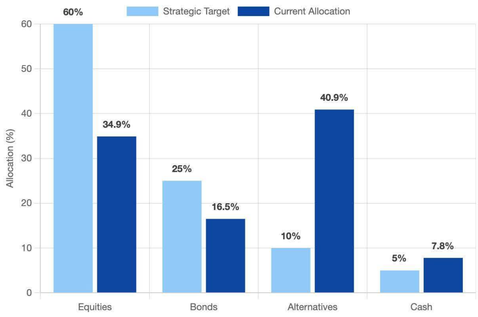
Portfolio Performance

(*All measurements and allocations are as of September 24th, 2025)

$112,700	12.70%	$12,700	$100,000
Current Value	Total Return	Profit / Loss	Initial Capital

Strategic Blueprint vs Current Allocation

This chart compares our long-term Strategic Asset Allocation (SAA) targets against the portfolio's current tactical positioning, highlighting a significant overweight in Alternatives and an underweight in Equities

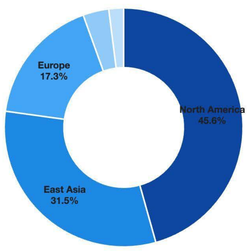


A World of Opportunity: Geographic Diversification

Equity Portfolio: Regional Breakdown

This shows the geographic distribution of our direct stock holdings, led by North American and East Asian equities

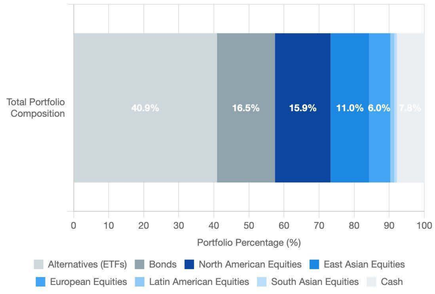
South Asia: 2.0% | **Latin America:** 3.5%



Total Portfolio: Regional Breakdown

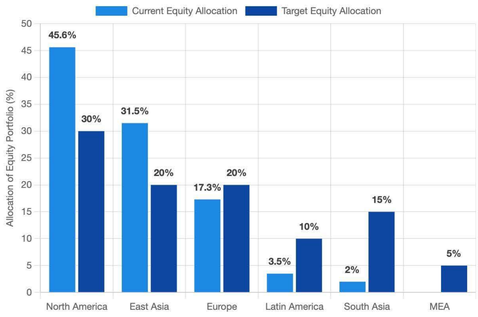
This chart illustrates how our regional equity exposures fit within the total portfolio alongside Alternatives, Bonds, and Cash

South Asian Equities: 0.7% | **Latin American Equities:** 1.2%



Future Regional Equity Targets

To better align with our global diversification strategy, we are targeting a more balanced regional equity allocation. This chart outlines our goals for portfolio rebalancing



Our Disciplined Investment Process

Every investment is subjected to a rigorous, multi-stage evaluation process, blending regional expertise with robust quantitative analysis to ensure it aligns with our fund's objectives

1. **Idea Generation**
   Sourced from specialized regional research teams worldwide

2. **Quantitative Screening**
   In-depth analysis using intrinsic/relative valuations and key financial metrics for each company

3. **Qualitative Review**
   Assessment of competitive advantage, management, and ESG factors

4. **Portfolio Construction**
   Position sizing and risk modeling to optimize the portfolio's risk/return profile
